

Petcharat Pobungkarn

Seven2002.7@gamil.com | 097 241 6174 | LinkedIn : Petcharat Pobungkarn

Key skills

- Cybersecurity
- Malware Analysis
- SOC Monitoring & Incident Handling
- Network Analysis with Wireshark
- Python & Automation Scripting
- Web Development (HTML, CSS, JavaScript)
- React.js / Node.js Development
- Web Scraping (Selenium + BeautifulSoup)
- Problem Solving & Critical Thinking
- Teamwork

Education

**Chulachomklao Royal
Military Academy**

Bachelor's degree,
Cybersecurity
2023 – present
(undergraduate)

Singsamut School

High School, Sci-Math
2015-2020

Summary

A motivated cybersecurity student with a solid foundation in digital forensics, incident response, threat hunting, vulnerability management, malware analysis, and security programming. Capable of proactively monitoring and analyzing cyber threats, responding quickly to incidents, and applying appropriate mitigation strategies. Committed to continuous learning and skill development to protect organizational assets from rapidly evolving cyber threats. Passionate about using analytical skills and technical knowledge to help strengthen cybersecurity defenses.

Experienced history

Full-stack development and automation scripting for small projects

Key responsibilities

- Develop full-stack web apps using React and Node.js
- Create custom Python bots for web scraping and automation

Achievements

- Built a bot that scrapes quiz data and automates answers
- Developed an integrated webshop system for Minecraft servers

Interests

- Cybersecurity labs and CTF challenges
- Automating repetitive tasks with code

Certifications

Pre-Security
Issued by: TryHackMe
Year: 2025

Basic Cyber-Security
Issued by: NCSA
Year: 2025

Cyber-Security Learning Path
Issued by: Let's Defend
Year: 2025

SOC Analyst Learning Path
Issued by: Let's Defend
Year: 2025

Malware Analysis Skill Path
