

Petcharat Pobungkarn

Cybersecurity Student | Aspiring SOC Analyst

PROJECT EXPERIENCE

- Develop full-stack web apps using React and Node.js
- Create custom Python bots for web scraping and automation

Achievements

- Built a bot that scrapes website data and automates collection

VOLUNTEERING ACTIVITIES AND EXTRACURRICULARS

CTF Competitor – Thailand Cyber Top Talent (2022–2025)

- Represented academic team in Thailand Cyber Top Talent for four consecutive years.
- Solved challenges in web exploitation, digital forensics, reverse engineering, and cryptography.
- Gained hands-on experience in incident response and team-based cyber defense scenarios.

Blue Team Member – TB-CERT Cybersecurity Competition (2025)

- Applied SOC-oriented detection and traffic analysis techniques in simulated attack scenarios.

TECHNICAL PROJECT

Full-Stack Development Project

- Developed a secure full-stack web application using React.js and Node.js with authentication and database integration.
- Improved user experience with responsive UI and secure login system.

Blue Team Project

- Performed hands-on threat hunting on pcap files using **Wireshark**
- Analyzed network traffic to identify indicators of compromise (IOC)
- Practiced detection techniques aligned with SOC operations.
- Investigated suspicious DNS and HTTP traffic patterns

CONTACT

- Bangkok, Thailand (Open to Remote)
- +66 97 241 6174
- seven2002.7@gmail.com
- linkedin.com/in/petcharat-pobungkarn-18997b353/

SKILLS

Security:

- SOC Monitoring
- Incident Response
- Threat Analysis
- Malware Analysis
- Network Forensics

Tools:

- Splunk(Basic Log Analysis), Wireshark
- Git, VS Code
- Linux (Basic Administration)

Programming:

- Python, JavaScript, React.js, Node.js

EDUCATION

Chulachomklao Royal Military Academy
Bachelor's Degree in Cybersecurity (Undergraduate)
2023 – Present

Singsamut School

High School Diploma – Science-Math Program
2015 – 2020

Certification

- Pre-Security – TryHackMe (2025)
- Basic Cybersecurity – NCSA (2025)
- Cybersecurity Learning Path – Let's Defend (2025)
- SOC Analyst Learning Path – Let's Defend (2025)
- Malware Analysis Skill Path – Let's Defend (2025)
- Programming for Cybersecurity – Let's Defend (2025)
- Junior Cybersecurity Analyst Career Path – Cisco Network (2026)
